LEOKA

Law Enforcement Officers Killed and Assaulted

The FBI's Law Enforcement Officers Killed and Assaulted (LEOKA) program is a nation-wide law enforcement safety initiative. Ongoing research is dedicated to our nation's law enforcement professionals who continue to make many sacrifices in serving and protecting society. The FBI-LEOKA Safety/Street Survival Training program is designed to assist military and law enforcement managers, trainers and personnel in the identification of training issues for the purpose of preventing the deaths and/or serious injuries of military/law enforcement personnel. This program is based on more than twenty-years of research by the FBI in collaboration with local state, and federal law enforcement agencies throughout the United States.

The presenter, Mr. Marcus Young is employed by Keane Federal Systems, assigned to the Federal Bureau Investigation (FBI) Criminal Justice Information Services Division (CJIS), as a FBI - LEOKA program instructor. Mr. Young is a 20-year veteran of law enforcement with recent employment as a Director of Public Safety Programs for Mendocino College, CA. He has a Master's degree in Counseling Psychology and a Bachelor's degree in Organizational Behavior from the University of San Francisco. In 2004, the International Association of Chiefs of Police (IACP) recognized Marcus as the Officer of the Year. President George W. Bush and Governor Schwarzenegger each awarded Mr. Young a Medal of Valor following an officer involved shooting incident.

FBI LEOKA - OFFICER SAFETY/STREET SURVIVAL TRAINING – Law Enforcement Officers Killed & Assaulted Program (8-hours)

The FBI LEOKA presentation may include the following topics:

National FBI LEOKA Program / Resources
LEOKA Research / Statistical Information
Officer Safety – Awareness – Street Survival
Foot Pursuits - Traffic Stops
Controlling Arrest Situations & Handcuffing
Street Combat Veterans
Post Critical Incident Stress
Will to Survive - Will to Win
The Deadly Mix - An Integrative Approach
Mental Preparation for Street Survival

Objective: To assist law enforcement supervisors, trainers, and personnel in the identification of training issues for the purpose of preventing the deaths and/or serious injuries of law enforcement personnel.

Delivery: Course content is presented / facilitated by a FBI-LEOKA program instructor. Instructional methods include: lecture, discussion, reading, analysis, reviewing interviews, video clips, and learner-centered activities. Handouts materials are provided at no costs by the FBI's CJISD LEOKA program.

Course Description: This program provides information on the history and policy relating to the LEOKA (Law Enforcement Officers Killed & Assaulted) Program. The emphasis of the presentation will be focused on the final companion study which was concluded in 2006, and resulted in a publication titled Violent Encounters. This study examines 40 incidents where police officers survived life threatening attacks. Demographic and behavioral descriptors for the victim officers and the offenders were developed and will be presented. The findings and resulting training issues will be presented. Also provided are analyses between research projects resulting in three publications over twenty-years: Killed in the Line of Duty, In the Line of Fire, and Violent Encounters. The objectives of these studies were to identify elements in certain situations which led to the ultimate felonious deaths and serious injuries of police officers. Demographic and behavioral descriptors for the victim officers and the offenders were developed and will be presented. Findings and safety training issues will be presented.
